Forecast for Monday 10 May 2021

Weather: Mainly dry during the night with clear periods. Also some fog patches in the glens, soon dispersing on Monday morning. Then clouds bubbling up and scattered showers breaking out. A few heavy showers are likely in the afternoon with a small risk of thunderstorms, especially towards Rannoch Moor and the Trossachs. Showers then dying out during the evening.

Chance of cloud free mountain/hill tops above 800m: 80%

Visibility: Generally good visibility with patchy cloud cover about 700 to 800m. There will be interruptions to poor visibility as heavier showers pass by with clouds more extensive.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Still a cold feel on the tops with fresh winds and low single figure temperatures. Also a steady thaw of lying snow from higher elevations will lead to some wet underfoot conditions.

Forecast for Tuesday 11 May 2021
Weather: Rather cloudy, showery start to the day then drier, brighter weather following during the morning. Some sunshine and scattered showers in the afternoon and early evening.

Maximum wind: Fresh southerly winds, average speeds on the tops of 20mph with gusts 35mph.

Chance of cloud free mountain/hill tops above 800m: 40% improving 70%

Visibility: Extensive cloud cover at first around 600 to 700m, with patches of poor visibility. Then mostly good visibility with clouds breaking up during the morning. There will be brief reductions in visibility in afternoon as showers come along with clouds again more extensive on the tops.

Temperature: **Glens:** Plus 8 Celsius rising to 15 Celsius
At 800m: Plus 6 Celsius.
Freezing level: Above the summits.
